

Памяти Бориса Ивановича Бузыкина

Борис Иванович Бузыкин
(07.12.1937–27.07.2014)

27 июля 2014 года ушёл из жизни Борис Иванович Бузыкин – доктор химических наук, профессор, заслуженный деятель науки Российской Федерации, крупный учёный, талантливый человек, известный как в России, так и далеко за её пределами.

В те далёкие годы, когда он приехал поступать в Казанский химико-технологический институт, не редкостью было, что совсем юные мальчишки и девчонки уезжали за знаниями далеко от своих родных мест. Но всё же, надо отдать должное смелости и храбрости обычного паренька, который не побоялся из далёкой деревенской глубинки (Мордовия) безо всякой поддержки и помощи родителей приехать в большой город и поступить в знаменитый и престижный ВУЗ. Путь был определён, и, начиная с момента окончания института в 1960 г., вся его последующая жизнь была неразрывно связана с наукой. Основным направлением научных интересов Бориса Ивановича было исследование химии гетероциклических и, прежде всего, азоторганических соединений (этому посвящена публикация в Ежегоднике 2012). Но хочется отметить, что широта и многогранность научной мысли Бориса Ивановича позволила ему оставить яркий след не только в синтетической химии азоторганических соединений, но и в работах, связанных с химией фосфора, что безусловно, закономерно, когда находишься в стенах славной школы Казанских химиков-фосфороргаников. При

этом целеустремленность, талант и огромная работоспособность, конечно же, не только находили свой выход в виде большого количества научных статей и нескольких монографий, защит кандидатских диссертаций, выполненных под его руководством, но и, прежде всего, снискали Борису Ивановичу славу, без преувеличения, химика-энциклопедиста. Потому с ним в любой момент можно было обсудить самые различные вопросы, касающиеся химии, и быть уверенным, что никогда не уйдешь, не получив ценного совета. Он делал это с удовольствием, не считаясь со своим временем. Само его “задиристое обаяние” притягивало, а весь ход начинаемой дискуссии по тому или иному вопросу, иногда даже превращавшейся в “противостояние сторон”, каким-то непонятным образом наталкивал обе стороны на решение проблемы. И это было самым главным.

Он ушёл из жизни, полный (как и всегда) новых планов, надежд и до последнего всем интересовался, был в курсе событий лаборатории и Института. Да и мы не можем до сих пор смириться, что нельзя прибежать к нему или услышать, как по коридору звучат его неторопливые шаги...

За выдающиеся результаты труд Бориса Ивановича был высоко оценен присвоением ему звания “Заслуженного деятеля науки Российской Федерации”, и радует то, что Борис Иванович успел при жизни получить это звание, а вот саму бумагу, уже после его смерти, вручали супруге.

Мы навсегда сохраним в нашей памяти образ глубоко знающего и эрудированного, доброго и отзывчивого, открытого и обладающего прекрасным чувством юмора человека, каким был Борис Иванович Бузыкин. А что касается науки, то ведь настоящие учёные живут вечно в своих трудах и продолжающихся работах следующих поколений.

ZHURNAL ORGANICHESKOI KHIMII 10(7), 1487 (1974)
141. LONSHCHAKOVA, TI; BUZYKIN, BI; TSIVUNIN, VS.
CLEAVAGE OF ETHER BOND BY VILSMEIER-HAACK REAGENT
ZHURNAL ORGANICHESKOI KHIMII 10(11), 2459 (1974)
142. BUZYKIN, BI; FLEGONTOV, SA; KITAEV, YP.

- HYDRAZONES .42. STUDY OF STRUCTURE OF ARYLHYDRAZONES OF ACYL HALIDES BY METHOD OF DIPOLE-MOMENTS
BULLETIN OF THE ACADEMY OF SCIENCES OF THE USSR DIVISION OF CHEMICAL SCIENCE 23(9), 1948 (1974)
143. BUZYKIN, BI; SYSOEVA, LP; KITAEV, YP.
HYDRAZONES .36. SYNTHESIS AND PROPERTIES OF 1(5)-ACYL-5(1)-ARYL-3-PHENYLFORMAZANS
ZHURNAL ORGANICHESKOI KHIMII 10(10), 2200 (1974)
144. BUZYKIN, BI; MUKHTAROV, AS; ILYASOV, AV; KITAEV, YP.
OXIDATION OF ACYLHALIDE ARYLHYDRAZONES
IZVESTIYA AKADEMII NAUK SSSR-SERIYA KHIMICHESKAYA (9), 2167 (1973)
145. KITAEV, YP; SYSOEVA, LP; BUZYKIN, BI.
HYDRAZONES .37. SULFAMIDOPHENYLHYDRAZONES OF METHYLGLYOXAL AND ALPHA, BETA DIKETOBUTYRIC ACID
ZHURNAL ORGANICHESKOI KHIMII 8(3), 515 (1972)
146. BUZYKIN, BI; LONSHCHAKOVA, TI.
INTERACTION BETWEEN AZINES AND PYRAZOLONES-5
IZVESTIYA AKADEMII NAUK SSSR-SERIYA KHIMICHESKAYA (10), 2340 (1971)
147. SHARNIN, GP; BUZYKIN, BI; SHAKUROVA, KK.
AROMATIC COMPOUNDS WITH HYDRAZO-GROUPS AND AZO-GROUPS .2.
PENTANITROAZOBENZENE NITRATION
ZHURNAL ORGANICHESKOI KHIMII 6(5), 1036 (1970)
148. SHARNIN, GP; BUZYKIN, BI.
AROMATIC COMPOUNDS WITH HYDRAZO AND AZO GROUPS .4. TETRANITROAZOBENZENE NITRATION
ZHURNAL ORGANICHESKOI KHIMII 6(7), 1476 (1970)
